Supplement dated September 22, 2026 to the
Summary Prospectus, Prospectus, and Statement of Additional Information (“SAI”)
each dated July 29, 2026

Effective October 1, 2026, Blake Williams will serve as a portfolio manager to the Fund, joining Michael Willis, who has served as lead portfolio manager to the Fund since its inception.

Accordingly, the section “Portfolio Manager” on page 4 of the Summary Prospectus and Prospectus is deleted and replaced with the following:

PORTFOLIO MANAGERS

Michael G. Willis, President and lead portfolio manager of the Adviser, has managed the Fund since its inception in April 2015.

Blake Williams, portfolio manager of the Adviser, has managed the Fund since October 2026.

Additionally, the section “Portfolio Manager” under the heading “FUND MANAGEMENT” on page 8 of the Prospectus is deleted and replaced with the following:

Portfolio Managers

Michael G. Willis is the President and lead portfolio manager of the Adviser. As the portfolio manager for the Fund, Mr. Willis is responsible for the day-to-day management of the Fund’s portfolio. Mr. Willis has served as a portfolio manager for the Adviser since 2004. Mr. Willis has also served as President of CYBER HORNET Trust since 2006.

Blake Williams is a portfolio manager of the Adviser. Prior to joining the Adviser in January 2026, Mr. Williams was a portfolio manager and trader with Eventus Trading Partners.

Additional information about the portfolio managers’ compensation, other accounts managed by the portfolio managers, and the portfolio managers’ ownership of securities in the Fund is included in the SAI.

SAI Information

As of the date of this supplement, Mr. Williams did not own any shares of the Fund for purposes of the SAI section “Portfolio Manager Ownership of Securities.” Mr. Williams did not manage any other accounts as of March 31, 2026 for purposes of the SAI section “Management of Other Accounts.”

Effective October 1, 2026, the section “Portfolio Manager Compensation Structure” under the heading “PORTFOLIO MANAGEMENT INFORMATION” in the SAI is deleted and replaced with the following:

Portfolio Manager Compensation Structure

Mr. Willis is entitled to receive a base salary from the Adviser for his services in the various positions he holds with the Adviser, including his position as lead portfolio manager and President. In addition, Mr. Willis, as the principal shareholder of the Adviser, is entitled to receive a share of net profits earned by the Adviser. Mr. Willis does not receive any other form of compensation or benefits for his services to the Adviser.

Mr. Williams is entitled to receive a base salary from the Adviser for his services as portfolio manager. Mr. Williams may also receive a discretionary bonus tied to the Adviser's profitability.

Potential Conflicts of Interest. Since the Fund and other accounts that may be managed by the portfolio managers and the Adviser in the future could have similar investment strategies, there is a potential risk that the portfolio managers could favor one or more of the other accounts over the Fund. However, the Adviser has established policies and procedures governing brokerage practice and the allocation of trades, which are designed to seek to ensure that the purchase and sale of securities among various accounts managed by the Adviser are fairly and equitably allocated. The Adviser is not aware of any cases where the investment strategies employed for the other accounts managed by the portfolio managers and the Adviser would cause them to take positions on the contrary side of the market from the Fund, or otherwise contrary to the interests of the Fund.

FUND SUMMARY

CYBER HORNET S&P 500® (formerly, ONEFUND S&P 500®)

INVESTMENT OBJECTIVE

CYBER HORNET S&P 500® (formerly, ONEFUND S&P 500®) (the “Fund”) seeks to replicate, before fees and expenses, the total return of the S&P 500® Index (the “Index”).

FEES AND EXPENSES

The following table describes the expenses and fees that you may pay if you buy, hold, and sell shares of the Fund. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.

No Load Shares	
Shareholder Fees <i>(fees paid directly from your investment)</i>	
Redemption Fee <i>(as a percentage of amount redeemed within 30 days of purchase)</i>	0.25%
Annual Account Maintenance Fee for Accounts under \$5,000	\$15.00
Annual Fund Operating Expenses <i>(expenses that you pay each year as a percentage of the value of your investment)</i>	
Management Fees ⁽¹⁾	0.25%
Distribution (12b-1) Fees	0.00%
Other Expenses	0.00%
Total Annual Fund Operating Expenses ⁽²⁾	0.25%

(1) CYBER HORNET ETFs, LLC (the “Adviser”) provides investment advisory services and pays the Fund’s operating expenses, with certain exceptions, in return for a “unitary fee” exclusive of expenses incurred pursuant to any distribution plan adopted pursuant to Rule 12b-1; taxes or governmental fees; acquired fund fees and expenses, if any; brokerage commissions and other expense of executing portfolio transactions; interest expenses; and litigation and potential litigation, and other extraordinary expenses not incurred in the ordinary course of the Fund’s business.

(2) Total Annual Fund Operating Expenses do not correlate to the ratio of expenses to average net assets provided in the financial highlights. The Management Fee and Other Expenses have been restated to reflect the current “unitary fee” agreement.

Expense Example

This example helps you compare the costs of investing in the Fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same.

	1 Year	3 Years	5 Years	10 Years
Although your actual costs may be higher or lower, based on these assumptions your cost would be:	\$26	\$80	\$141	\$318

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund’s performance. During the most recent fiscal year, the Fund’s portfolio turnover rate was 30% of the average value of its portfolio.

PRINCIPAL INVESTMENT STRATEGIES

The Fund seeks to achieve its investment objective by investing in a portfolio of assets whose performance, before fees and expenses, is expected to match approximately the performance of the Index. The Fund expects that its portfolio will consist primarily of securities of issuers included in the Index. The Index is designed to measure the performance of 500 U.S. companies chosen for market size, liquidity, and industry grouping, among other factors. In some instances, one or more of the 500 companies may have more than one share class included in the Index. Overall Fund positions will be typically assessed and if necessary rebalanced quarterly and at other intervals as the Adviser deems appropriate, bearing in mind that the Index is also typically rebalanced quarterly, in order to seek to achieve the Fund’s investment objective.

The Index is maintained in accordance with the index methodology of the S&P 500. It measures the performance of 500 companies, all of which are listed on national stock exchanges and include companies from 11 different industry sectors. The weight of each company’s stock in the Index is typically proportionate to the company’s market capitalization. As a result, companies with the largest market capitalizations will tend to have the highest weights within the Index.

As of June 30, 2026, the minimum threshold for adding companies to the Index was a market capitalization of \$22.7 billion or higher, and the average market capitalization of the 500 companies was \$1133.6 billion. The Fund may change its target index if Fund management believes a different index would better enable the Fund to match the performance of the market segment represented by the Index.

The Fund will invest, under normal circumstances, at least 80% of its net assets and borrowings for investment purposes in securities of issuers included in the Index. Under normal circumstances, the Adviser expects the Fund to invest the remaining portion of its portfolio, which may be up to 20% of the Fund’s net assets and borrowings, in: (i) securities that have economic characteristics similar to securities of the companies within the Index, or are intended to track the performance of the Index as a whole (which may include securities of other investment companies, such as exchange-traded funds), or (ii) cash, cash equivalents and U.S. Government securities. In certain situations where, for example, the Fund’s access to certain issuers is, in the Adviser’s view, limited, the Fund may not hold securities of all of the companies within the Index. The

Fund may sell securities that are represented in the Index in anticipation of their removal from the Index, or buy securities that are not yet represented in the Index in anticipation of their addition to the Index.

The Fund may concentrate its investments (*i.e.*, hold 25% or more of its total assets) in a particular industry or sector to approximately the same extent that the Index is so concentrated. As of the date of this Prospectus, a significant portion of the Fund's assets were invested in the information technology sector, although this may change from time to time. The Fund may become non-diversified, as defined in the Investment Company Act of 1940, as amended (the "1940 Act"), solely as a result of an Index rebalance or market movement.

PRINCIPAL RISKS

The following is a description of the principal risks of investing in the Fund which could affect the net asset value and total return of the Fund. There are other circumstances (including additional risks not described here) which could prevent the Fund from achieving its investment objective. These risks are presented in an order that reflects the Adviser's current assessment of relative importance, but this assessment could change over time as the Fund's portfolio changes or in light of changes in the market or the economic environment, among other things. The Fund is not required to and will not update this Prospectus solely because its assessment of the relative importance of the principal risks of investing in the Fund changes.

Correlation and Tracking Error Risk – Various factors may impede the Fund's ability to track the Index or achieve a high degree of correlation with the Index. For example, the Fund has operating and other expenses, while the Index does not. In addition, the Fund may not be fully invested at times, generally as a result of cash flows into or out of the Fund or excess cash held by the Fund for various reasons, which could create "cash drag." As a result, the Fund may underperform the Index to some degree over time.

Changes in securities markets, changes in the composition of the Index, timing of purchases and sales of securities underlying the Index, timing of purchases and sales of Fund shares, rounding of share prices, regulatory developments, portfolio turnover, timing of the payment of Fund expenses, and timing of reimbursement of Fund expenses by the Adviser may all contribute to tracking error and/or affect the correlation between the Fund and the Index, thereby adversely impacting the Fund's performance. There can be no guarantee that the Fund will achieve a high degree of correlation. Failure to achieve a high degree of correlation may prevent the Fund from achieving its investment objective.

Passive Investment Strategy Risk – The Fund utilizes a passive investment strategy, which attempts to track the performance of an unmanaged index of securities. The ability of the Fund to achieve significant correlation between the performance of the Fund and the Index may be affected by changes in the securities markets, changes in the composition of the Index, the timing of purchases and redemptions of Fund shares and fees and

expenses of the Fund.

Equity Risk – The values of equity securities may decline due to general market conditions which are not specifically related to a particular company, such as real or perceived adverse economic conditions, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. They may also decline due to factors which affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry. Equity securities generally have greater price volatility than fixed income securities.

Investment Style Risk – Returns from large-capitalization stocks may trail returns from the overall stock market. Large-cap stocks tend to go through cycles of performing better – or worse – than other segments of the stock market or the stock market in general. These periods have, in the past, lasted for as long as several years.

Concentration Risk – The Fund has a fundamental policy not to invest more than 25% of the current value of the Fund's total assets in any one industry, except that this policy does not apply to: (i) investments in securities of other investment companies, (ii) investments in securities issued or guaranteed by the U.S. government, its agencies or instrumentalities, or (iii) investments in repurchase agreements collateralized by U.S. government securities. However, the Fund reserves the right to concentrate its investments (*i.e.*, invest 25% or more of its total assets in securities of issuers in a particular industry) to approximately the same extent that the Index concentrates in a particular industry. To the extent the Fund concentrates in a particular industry, it may be more susceptible to economic conditions and risks affecting that industry.

Non-diversification Risk – Because the Fund seeks to closely track the composition of the Index, from time to time, more than 25% of the Fund's total assets may be invested in issuers representing more than 5% of the Fund's total assets due to an Index rebalance or market movement, which would result in the Fund being non-diversified under the 1940 Act. The Fund's performance may be hurt disproportionately by the poor performance of relatively few stocks, or even a single stock, and the Fund's shares may experience significant fluctuations in value.

Information Technology Sector Risk – Market or economic factors impacting information technology companies could have a major effect on the value of the Fund's investments. The value of stocks of information technology companies is particularly vulnerable to rapid changes in technology product cycles, rapid product obsolescence, government regulation and competition, both domestically and internationally, including competition from foreign competitors with lower production costs. Like other technology companies, information technology companies may have limited product lines, markets, financial resources or personnel. Stocks of technology companies and companies that rely heavily on technology, especially those of smaller, less-seasoned companies, tend to be more volatile than the overall market. Information technology companies are heavily

dependent on patent and intellectual property rights, the loss or impairment of which may adversely affect profitability. Additionally, companies in the information technology sector may face dramatic and often unpredictable changes in growth rates and competition for the services of qualified personnel.

Trading Halt Risk – An exchange or market may issue trading halts on specific securities or instruments, or may close early or late, which will affect the ability of the Fund to buy or sell certain securities. In such circumstances, the Fund may be unable to rebalance its portfolio, may be unable to accurately price its investments or may incur substantial trading losses.

All investments carry some degree of risk that will affect the value of the Fund, its investment performance and the price of its shares. As a result, you may lose money if you invest in the Fund.

The shares offered by this Prospectus are not deposits or obligations of any bank, are not endorsed or guaranteed by any bank and are not insured or guaranteed by the U.S. government, the Federal Deposit Insurance Corporation, the Federal Reserve Board or any other government agency.

PERFORMANCE INFORMATION

The bar chart and performance table below provide an indication of the risks of investing in the Fund by showing the annual total returns, highest and lowest quarterly returns and the average annual total returns (before and after taxes) in comparison to the performance of a broad-based securities index. The Fund's past performance is not necessarily an indication of how it will perform in the future. Updated performance information is available on the Fund's website at www.cyberhornets.com or by calling 1-844-464-6339.

Calendar Year Return – No Load Class Shares as of December 31

During the period shown on the bar chart, the Fund's highest total return for a quarter was 21.55% (quarter ended June 30, 2020) and the lowest total return for a quarter was -26.49% (quarter ended March 31, 2020). As of June 30, 2026, the calendar year-to-date return was 10.05%.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. The after-tax returns shown are not relevant to investors who hold their shares through tax-advantaged arrangements such as 401(k) plans or Individual Retirement Accounts (IRAs).

However, if you choose to buy the Fund through alternate platforms and/or broker-dealers, you may be required to pay commissions and/or other forms of compensation to a broker.

TAX INFORMATION

For U.S. federal income tax purposes, the Fund's distributions are taxable and will be taxed as ordinary income, capital gains, qualified dividend income, or section 199A dividends, unless you are investing through a tax-advantaged arrangement, such as a 401(k) plan or an individual retirement account. Withdrawals from such a tax-advantaged investment plan will be subject to special tax rules.

PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Adviser or its affiliates may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

CYBER HORNET S&P 500® (formerly, ONEFUND S&P 500®)

This section describes the Fund's investment objective and principal investment strategies. See "More on the Fund's Investments and Related Risks" in this Prospectus and the Statement of Additional Information (the "SAI") for more information about the Fund's investments and the risks of investing.

Investment Objective

CYBER HORNET S&P 500® (formerly, ONEFUND S&P 500®) (the "Fund") seeks to replicate, before fees and expenses, the total return of the S&P 500® Index (the "Index").

While there is no assurance that the Fund will achieve its investment objective, it endeavors to do so by following the strategies and policies described in this Prospectus.

The Fund's Board of Trustees (the "Board") may change the Fund's investment objective or the Fund's principal investment strategies without a shareholder vote. The Fund will notify you in writing at least sixty (60) days before making any such change. If there is a material change to the Fund's investment objective or principal investment strategies, you should consider whether the Fund remains an appropriate investment for you.

Principal Investment Strategies

The Fund seeks to achieve its investment objective by investing in a portfolio of assets whose performance, before fees and expenses, is expected to match approximately the performance of the Index. The Fund expects that its portfolio will consist primarily of securities of issuers included in the Index. The Index is designed to measure the performance of 500 U.S. companies chosen for market size, liquidity and industry grouping, among other factors. In some instances, one or more of the 500 companies may have more than one share class included in the Index. Overall Fund positions will be typically assessed and if necessary rebalanced quarterly and other intervals as the Adviser deems appropriate, bearing in mind that the Index is also typically rebalanced quarterly, in order to seek to achieve the Fund's investment objective.

The Index is maintained in accordance with the index methodology of the S&P 500. It measures the performance of 500 companies, all of which are listed on national stock exchanges and include companies from 11 different industry sectors. The weight of each company's stock in the Index is typically proportionate to the company's market capitalization. As a result, companies with the largest market capitalizations will tend to have the highest weights within the Index.

As of June 30, 2026, the minimum threshold for adding companies to the Index was a market capitalization of \$22.7 billion or higher, and the average market capitalization of the 500 companies was \$133.6 billion. The Fund may change its target index if Fund management believes a different index would better enable the Fund to match the performance of the market segment represented by the Index. The Fund will invest, under normal circumstances, at least 80% of its net assets and borrowings for investment purposes in securities of issuers included in the Index. Under normal circumstances, the Adviser expects the Fund to invest the remaining portion of its portfolio, which may be up to 20% of the Fund's net assets and borrowings, in: (i) securities that have economic characteristics similar to securities of the companies within the Index, or are intended to track the performance of the Index as a whole (which may include securities of other investment companies, such as exchange-traded funds), or (ii) cash, cash equivalents and U.S. Government securities. In certain situations where, for example, the Fund's access to certain issuers is, in the Adviser's view, limited, the Fund may not hold securities of all of the companies within the Index. The Fund may sell securities that are represented in the Index in anticipation of their removal from the Index, or buy securities that are not yet represented in the Index in anticipation of their addition to the Index.

The Fund may concentrate its investments (*i.e.*, hold 25% or more of its total assets) in a particular industry or sector to approximately the same extent that the Index is so concentrated. As of the date of this Prospectus, a significant portion of the Fund's assets were invested in the information technology sector, although this may change from time to time. The Fund may become non-diversified, as defined in the Investment Company Act of 1940, as amended (the "1940 Act"), solely as a result of an Index rebalance or market movement.

Description of Principal Security Types

Equity Securities

Equity securities represent an ownership interest, or the right to acquire an ownership interest, in an issuer. Different types of equity securities provide different voting and dividend rights and priority in the event of the bankruptcy of the issuer. Equity securities include common stocks, preferred stocks, convertible securities, and warrants.

Principal Risk Factors

An investment in the Fund is subject to investment risks, including the possible loss of the principal amount invested. The Fund's performance per share will change daily based on many factors, including fluctuation in interest rates, the quality of the instruments in the Fund's investment portfolio, national and international economic conditions and general market conditions. You may lose money on your investment in the Fund or the Fund could underperform other investment companies. The following factors can significantly affect the Fund's performance.

Correlation and Tracking Error Risk – Various factors may impede the Fund's ability to track the Index or achieve a high degree of correlation with the Index. For example, the Fund has operating and other expenses, while the Index does not. In addition, the Fund may not be fully invested at times, generally as a result of cash flows into or out of the Fund or excess cash held by the Fund for various reasons, which could create "cash drag". As a result, the Fund may underperform the Index to some degree over time. Changes in securities markets, changes in the composition of the Index, timing of purchases and sales of securities underlying the Index, timing of purchases and sales of Fund shares, rounding of share prices, regulatory developments, portfolio turnover, timing of the payment of Fund expenses, and timing of reimbursement of Fund expenses by the Adviser may all contribute to tracking error and/or affect the correlation between the Fund and the Index, thereby adversely impacting the Fund's performance. There can be no guarantee that the Fund will achieve a high degree of correlation. Failure to achieve a high degree of correlation may prevent the Fund from achieving its investment objective.

Passive Investment Strategy Risk – The Fund utilizes a passive investment strategy, which attempts to track the performance of an unmanaged index of securities. The ability of the Fund to achieve significant correlation between the performance of the Fund and the Index may be affected by changes in the securities markets, changes in the composition of the Index, the timing of purchases and redemptions of Fund shares and fees and expenses of the Fund.

Equity Risk – The values of equity securities may decline due to general market conditions which are not specifically related to a particular company, such as real or perceived adverse economic conditions, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment generally. They may also decline due to factors which affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry. Equity securities generally have greater price volatility than fixed income securities.

Investment Style Risk – Returns from large-capitalization stocks may trail returns from the overall stock market. Large-cap stocks tend to go through cycles of performing better – or worse – than other segments of the stock market or the stock market in general. These periods have, in the past, lasted for as long as several years.

Concentration Risk – The Fund has a fundamental policy not to invest more than 25% of the current value of the Fund's total assets in any one industry, except that this policy does not apply to: (i) investments in securities of other investment companies, (ii) investments in securities issued or guaranteed by the U.S. government, its agencies or instrumentalities, or (iii) investments in repurchase agreements collateralized by U.S. government securities. However, the Fund reserves the right to concentrate its investments (i.e., invest 25% or more of its total assets in securities of issuers in a particular industry) to approximately the same extent that the Index concentrates in a particular industry. To the extent the Fund concentrates in a particular industry, it may be more susceptible to economic conditions and risks affecting that industry.

Non-diversification Risk – Because the Fund seeks to closely track the composition of the Index, from time to time, more than 25% of the Fund's total assets may be invested in issuers representing more than 5% of the Fund's total assets due to an Index rebalance or market movement, which would result in the Fund being non-diversified under the 1940 Act. The Fund's performance may be hurt disproportionately by the poor performance of relatively few stocks, or even a single stock, and the Fund's shares may experience significant fluctuations in value.

Information Technology Sector Risk – Market or economic factors impacting information technology companies could have a major effect on the value of the Fund's investments. The value of stocks of information technology companies is particularly vulnerable to rapid changes in technology product cycles, rapid product obsolescence, government regulation and competition, both domestically and internationally, including competition from foreign competitors with lower production costs. Like other technology companies, information technology companies may have limited product lines, markets, financial resources or personnel. Stocks of technology companies and companies that rely heavily on technology, especially those of smaller, less-seasoned companies, tend to be more volatile than the overall market. Information technology companies are heavily dependent on patent and intellectual property rights, the loss or impairment of which may adversely affect profitability. Additionally, companies in the information technology sector may face dramatic and often unpredictable changes in growth rates and competition for the services of qualified personnel.

Trading Halt Risk – An exchange or market may issue trading halts on specific securities or instruments, or may close early or late, which will affect the ability of the Fund to buy or sell certain securities. In such circumstances, the Fund may be unable to rebalance its portfolio,

may be unable to accurately price its investments or may incur substantial trading losses.

Non-Principal Risks of Investing in the Fund

In addition to those risks described in its SAI, the Fund may also be subject to certain other non-principal risks associated with its investments and investment strategies, including the following factors:

Expense Risk – Fund expenses are subject to a variety of factors, including fluctuations in the Fund’s net assets. Accordingly, actual expenses may be greater or less than those indicated. For example, to the extent that the Fund’s net assets decrease due to market declines or redemptions, the Fund’s expenses will increase as a percentage of Fund net assets. During periods of high market volatility, these increases in the Fund’s expense ratio could be significant.

Investment in Investment Companies Risk – Investing in other investment companies, including money market funds and exchange-traded funds, subjects the Fund to fees and expenses of, as well as those risks affecting, the investment company, including the possibility that the value of the underlying securities held by the investment company could decrease. While the Fund does not regard other investment companies as an “industry” for purposes of determining industry concentration, the Fund intends to look through to the holdings of underlying investment companies, subject to the Fund’s ability to obtain such information.

Temporary Defensive Positions and Cash Positions – The Fund may take temporary defensive positions in short-term debt securities, cash and cash equivalents in response to adverse market, economic or political conditions. The Fund may also depart from its principal investment strategies when the portfolio managers believe that market conditions are unfavorable for profitable investing, or when they are otherwise unable to locate attractive investment opportunities. In other words, cash or similar investments generally are a residual – they represent the assets that remain after the Fund has committed available assets to desirable investment opportunities. Under such circumstances, the Fund may not achieve its investment objective, and it may not participate in market advances or declines to the same extent that it would if the Fund remained more fully invested.

Cybersecurity Risk – In connection with the increased use of technologies such as the Internet and the dependence on computer systems to perform necessary business functions, the Fund may be susceptible to operational, information security and related risks due to the possibility of cyber-attacks or other incidents. Cyber incidents may result from deliberate attacks or unintentional events. Cyber-attacks include, but are not limited to, infection by computer viruses or other malicious software code, gaining unauthorized access to systems, networks or devices that are used to service the Fund’s operations through hacking or other means for the purpose of misappropriating assets or sensitive information, corrupting data or causing operational disruption. Cyber-attacks may also be carried out in a manner that does not require gaining unauthorized access, such as causing denial-of-service attacks (which can make a website unavailable) on the Fund’s website. In addition, authorized persons could inadvertently or intentionally release confidential or proprietary information stored on the Fund’s systems.

Additional Information Concerning the Fund’s Investment Strategies

Investment Limitations

Except with respect to the illiquid investment restrictions set forth in the SAI, limitations on Fund investments listed in this Prospectus will typically apply at the time of investment. The Fund would not violate these limitations unless an excess or deficiency occurs or exists immediately after and as a result of an investment. Unless otherwise indicated, references to assets in the percentage limitations on the Fund’s investments refer to total assets.

Portfolio Turnover

The Fund generally intends to purchase securities as long-term investments; however, short-term trading may occur. This means that the Fund may buy a security and sell that security a short period of time after its purchase, and realize gains or losses, if the portfolio manager believes that the sale is in the best interest of the Fund. This activity will increase the Fund’s portfolio turnover rate and generate higher transaction costs due to commissions and other expenses which could reduce the Fund’s investment performance. In addition, short-term trading may increase the amount of taxable distributions to shareholders which would reduce the after-tax returns of the Fund, and in particular may generate short-term capital gains that when distributed to shareholders are taxed as ordinary income.

FUND MANAGEMENT

The Investment Adviser

CYBER HORNET ETFS, LLC, located at 200 Central Ave. Suite 800, St. Petersburg, Florida 33701, is the Investment Adviser for the Fund (the “Adviser”). The Adviser may provide investment advisory services for individuals, trusts, estates, and institutions. The Adviser commenced operations in 2004, and is registered as an investment adviser with the Securities and Exchange Commission (the “SEC”). As of March 31, 2026, the Adviser had \$157 million in assets under management.

The Adviser makes the day-to-day investment decisions and continuously reviews and administers the Fund’s investment program. For the investment advisory services provided by the Adviser, the Adviser is entitled to receive advisory fees from the Fund at the annual rate of 0.25% of the Fund’s daily net assets pursuant to an advisory agreement between the Fund and the Adviser (the “Advisory Agreement”). The Adviser’s unitary management fee is designed to pay the Fund’s expenses and to compensate the Adviser for providing services for the Funds. Out of the unitary management fee, the Adviser pays substantially all expenses of the Fund, including the costs of transfer agency, custody, fund administration, legal, audit, and other services. The Adviser, and not the Fund’s shareholders, would benefit from any reduction in fees paid for third-party services, including reductions based on increases in net assets.

Under the Advisory Agreement, the Adviser has agreed to pay the Fund’s operating expenses, with certain exceptions, in return for a “unitary fee” exclusive of expenses incurred pursuant to any distribution plan adopted pursuant to Rule 12b-1; taxes or governmental fees; acquired fund fees and expenses, if any; brokerage commissions and other expenses of executing portfolio transactions; interest expenses; and litigation and potential litigation and other extraordinary expenses not incurred in the ordinary course of the Fund’s business.

The initial term of the Advisory Agreement is two years, and the Board may thereafter extend the Advisory Agreement for additional one-year terms. The Advisory Agreement may be terminated by a vote of a majority of the outstanding voting securities of the Fund or by a vote of a majority of the Board on 60 days’ written notice to the Adviser or by the Adviser on 60 days’ written notice to the Trust. A discussion regarding the basis for the Board’s most recent renewal of the Advisory Agreement was provided in the Fund’s Form N-CSR for the year ended March 31, 2026.

The aggregate fee paid to the Adviser for the most recent fiscal year, net of waivers/reimbursements and expressed as a percentage of average net assets, was 0%.

Portfolio Manager

Michael G. Willis is the President and lead portfolio manager of the Adviser. As the portfolio manager for the Fund, Mr. Willis is responsible for the day-to-day management of the Fund’s portfolio.

Mr. Willis has served as a portfolio manager for the Adviser since 2004. Mr. Willis has also served as President of CYBER HORNET Trust since 2006.

Additional information about the portfolio manager’s compensation, other accounts managed by the portfolio manager, and the portfolio manager’s ownership of securities in the Fund is included in the SAI.

The Distributor and Administrator

Foreside Fund Services, LLC, a wholly owned subsidiary of Foreside Financial Group, LLC (doing business as ACA Group) (the “Distributor”), serves as the distributor of the Fund’s shares. The Distributor is located at 190 Middle Street, Suite 301, Portland, Maine 04101.

U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services, is located at 615 East Michigan Street, Milwaukee, Wisconsin 53202. It acts as the administrator to the Fund (the “Administrator”), fund accountant and transfer agent.

The SAI has more detailed information about the Adviser, Distributor, Administrator, and other service providers.

SHAREHOLDER INFORMATION

Pricing of Fund Shares

The Board has approved certain pricing and valuation guidelines to be used in determining the Fund’s net asset value per share (NAV). The NAV is generally determined once each day at the close of regular trading on the New York Stock Exchange (NYSE), normally at 4 p.m. Eastern Time on days the NYSE is open.

The NYSE is open every weekday except for the days on which national holidays are observed and certain business holidays, such as Good Friday. The value of securities traded in markets outside the United States or denominated in currencies other than the U.S. dollar may be affected significantly on a day that the NYSE is closed and an investor is not able to purchase or redeem shares.

Your order for the purchase or sale of shares is priced at the next NAV calculated after your order is received by the Fund.

Fair Value Pricing Policies

Pursuant to its policies and procedures, the Fund will fair value price its securities when market quotations are not readily available. Generally, this would include securities for which trading has been halted, securities whose value has been materially affected by the occurrence of a significant event (as defined below), securities whose price has become stale (i.e., the market price has remained unchanged for five business days), and other securities where a market price is not available from either a national pricing service or a broker. In addition, the Adviser, as the Fund’s Valuation Designee (as defined in Rule 2a-5 under the Investment Company Act of 1940, as amended), will review exception priced securities (i.e., securities for which the market value is provided by a quote from a single broker rather than a national pricing service) on a quarterly basis. In these situations, the Valuation Designee will employ certain Board-approved methodologies to determine a fair value for the securities. Fair valuations will be reviewed by the Board of Trustees on a quarterly basis. Fair value pricing should result in a more accurate determination of the Fund’s net asset value price, which should eliminate the potential for stale pricing arbitrage opportunities in the Fund. However, fair value pricing involves the risk that the values used by the Fund to price its investments may be different from those used by other investment companies and investors to price the

same investments.

How NAV is Calculated

The NAV for the Fund's No Load Shares is calculated by dividing the total value of the Fund's investments attributable to the No Load Share class less any liabilities attributable to the No Load Share class, by the total number of outstanding shares of that class:

$$\text{NAV} = \frac{\text{Total Assets} - \text{Liabilities}}{\text{Number of Shares Outstanding}}$$

The value of assets in the Fund's portfolio is determined on the basis of their market value, or where market quotations are not readily available or are deemed unreliable due to a significant event or otherwise, based on fair value as determined in good faith in accordance with the procedures established by the Fund's Board of Trustees. The Fund may invest in securities that are primarily listed on foreign exchanges that trade on weekends or other days when the Fund does not price its shares. The value of portfolio securities held by the Fund may change on days when shareholders will not be able to purchase or redeem shares.

Purchasing and Adding to Your Shares

You may purchase shares of the Fund through the Distributor or through banks, brokers and other investment representatives, which may charge additional fees and may require higher minimum investments or impose other limitations on buying and selling shares. If you purchase shares through an investment representative, that party is responsible for transmitting orders by close of business and may have an earlier cut-off time for purchase and sale requests. Consult your investment representative or institution for specific information.

Orders received by an investment representative that has been authorized to accept orders on the Fund's behalf prior to the time the Fund determines its NAV will be deemed accepted by the Fund the same day and will be executed at that day's closing share price. Each investment representative's agreement with the Fund permits the investment representative to transmit orders to the Fund that reflect orders received by the investment representative prior to the Fund's NAV calculation time, and to transmit those orders after that time and have those orders executed at the closing share price determined on the day the order was received by the investment representative.

All purchases must be in U.S. dollars. The Fund will accept purchases only in US dollars drawn from US financial institutions. Cash equivalents, for example, cash, cashier's checks, bank official checks, certified checks, bank money orders, third party checks (except for properly endorsed IRA transfer and rollover checks), counter checks, starter checks, traveler's checks, money orders, credit card checks, and checks drawn on non-U.S. financial institutions will generally not be accepted.

There is an annual pass through IRA and Coverdell Education Savings Account maintenance fee of \$25.00 that is charged by the IRA custodian on a per-account basis.

With certain limited exceptions, the Fund is available only to U.S. citizens or residents.

Minimum Initial Investment	Minimum Subsequent Investment
\$ 1,000	\$ 100

The Fund may waive its minimum purchase requirement and the Distributor may reject a purchase order if it considers it in the best interest of the Fund and its shareholders.

If you buy the Fund directly from CYBER HORNET TRUST, no commissions or other forms of compensation will be paid to a broker. However, if you choose to buy the Fund through alternate platforms and/or broker-dealers, you may be required to pay commissions and/or other forms of compensation to a broker.

Instructions for Opening or Adding to an Account

By Regular Mail or By Overnight Service:

Initial Investment – if purchasing through your financial advisor or brokerage account, simply tell your advisor or broker that you wish to purchase shares of the Fund and he or she will take care of the necessary documentation. For all other purchases, follow the instructions below.

1. Carefully read, complete, and sign the account application. Establishing your account privileges now, saves you the inconvenience of having to add them later.

-
2. Make your check payable to "CYBER HORNET TRUST" and include the name of the Fund and class on the check.
 3. Mail to: CYBER HORNET TRUST, c/o U.S. Bank Global Fund Services, P.O. Box 219252, Kansas City, MO 64121-9252.

Subsequent Investment:

1. Use the investment slip attached to your account statement.
2. Or, if unavailable, include the following information in writing:
 - a. Fund name
 - b. Share class
 - c. Amount invested
 - d. Account name
 - e. Account number
3. Mail to: CYBER HORNET TRUST, c/o U.S. Bank Global Fund Services, P.O. Box 219252, Kansas City, MO 64121-9252.
Overnight: CYBER HORNET TRUST, c/o U.S. Bank Global Fund Services, 801 Pennsylvania Avenue, Suite 219252, Kansas City, MO 64105-1307. **Note: It is imperative that the Suite number be used for deliveries.**

A purchase request will be considered to be in "good order" only if it includes all of the following:

- A completed and signed account application (for new accounts).
- The exact dollar amount of the investment.
- For existing accounts, the account number and the name(s) exactly as registered on the account.
- Payment in U.S. dollars, payable to the Fund.
- Any documentation reasonably required by the Fund or its transfer agent to verify the identity or authority of the purchaser, if applicable.

Requests that are incomplete, unclear, or submitted without the required documentation may be delayed or rejected. The Fund and its transfer agent are not responsible for delays or losses due to requests that are not received in good order.

The Fund does not consider the US Postal Service or other independent delivery services to be their agents. Therefore, deposit in the mail or with such services, or receipt at the CYBER HORNET TRUST's post office box, of purchase orders or redemption requests does not constitute receipt by the Fund.

By Telephone

Investors may purchase additional shares of the Fund by calling 1-844-464-6339. Unless you declined this option on your account application, and your account has been open for at least 7 business days, telephone orders will be accepted via electronic funds transfer from your bank account through the Automated Clearing House (ACH) network. You must have banking information established on your account prior to making a purchase. If your order is received prior to 4 p.m. Eastern time, your shares will be purchased at the net asset value calculated on the day your order is placed.

By Automated Clearing House ("ACH")

Current shareholders may purchase additional shares through a domestic depository institution that is an Automated Clearing House ("ACH") member. This purchase option can be established by completing the appropriate sections of the Account Application or Account Options Form. Your bank or broker may charge for this service. You may not use ACH transactions for your initial purchase of Fund shares.

Wire Transfer

To purchase shares by wire transfer, please call 1-844-464-6339 for wiring instructions and to obtain an account number prior to wiring the funds.

ACH vs. Wire Transfer

Wire transfers allow financial institutions to send funds to each other, almost instantaneously. With an electronic purchase or sale, the transaction is made through the Automated Clearing House (ACH) and may take up to three days to clear. There is generally no fee for ACH transactions.*

Automatic Investment Plan

Once your account has been opened with the initial minimum investment, you may make additional purchases at regular intervals through the Automatic Investment Plan. This Plan provides a convenient method to have monies deducted from your bank account, for investment into the Fund, on a monthly. In order to participate in the Plan, your financial institution must be a member of the Automated Clearing House (ACH) network. If your bank rejects your payment, the Fund's transfer agent will charge a \$25 fee to your account. To begin participating in the Plan, please complete the Automatic Investment Plan section on the account application or call the Fund's transfer agent at 1-844-464-6339 for instructions. Any request to change or terminate your Automatic Investment Plan should be submitted to the transfer agent 5 days prior to the effective date.

Directed Dividend Option

By selecting the appropriate box in the Account Application, you can elect to receive your distributions in cash (check) or have distributions (capital gains and dividends) reinvested in the Fund. The Fund may modify or terminate this reinvestment option without notice. You may change your election by writing or calling the Transfer Agent at 1-844-464-6339 at least five days prior to the record date of the next distribution.

Distribution checks will only be issued for payments greater than \$25.00. Distributions will automatically be reinvested in shares of the fund(s) generating the distribution if under \$25.00. Un-cashed distribution checks will be canceled, and proceeds reinvested at the then current net asset value, for any shareholder who chooses to receive distributions in cash, if distribution checks: (1) are returned and marked as "undeliverable" or (2) remain un-cashed for six months after the date of issuance. If distribution checks are canceled and reinvested, your account election may also be changed so that all future distributions are reinvested rather than paid in cash. Interest will not accrue on uncashed distribution checks.

Customer Identification Information

To help the U.S. Government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify and record information that identifies each person that opens a new account, and to determine whether such person's name appears on U.S. Government lists of known or suspected terrorists and terrorist organizations.

As a result, the Fund must obtain the following information for each person that opens a new account:

- Name;
- Date of birth (for individuals);
- Residential or business street address (although post office boxes are still permitted for mailing); and
- Social security number, taxpayer identification number, or other identifying number.

You may also be asked for a copy of your driver's license, passport or other identifying document in order to verify your identity. In addition, it may be necessary to verify your identity by cross-referencing your identification information with a consumer report or other electronic database. Additional information may be required to open accounts for corporations and other entities.

Federal law prohibits the Fund and other financial institutions from opening a new account unless they receive the minimum identifying information listed above. After an account is opened, the Fund may restrict your ability to purchase additional shares until your identity is verified. The Fund may close your account or take other appropriate action if they are unable to verify your identity within a reasonable time. If your account is closed for this reason, your shares will be redeemed at the NAV next calculated after the account is closed.

If you are opening an account in the name of a legal entity (e.g., a partnership, business trust, limited liability company, corporation, etc.), you may be required to supply the identity of the beneficial owner or controlling person(s) of the legal entity prior to the opening of your account. The Fund may request additional information about you (which may include certain documents, such as articles of incorporation for companies) to help the transfer agent verify your identity.

Anti-Money Laundering Program

Customer identification and verification is part of the Fund's overall obligation to deter money laundering under federal law. The Fund has adopted an anti-money laundering compliance program designed to prevent the Fund from being used for money laundering or the financing of terrorist activities. In this regard, the Fund reserves the right to (i) refuse, cancel or rescind any purchase order, (ii) freeze any account and/or suspend account services, or (iii) involuntarily redeem your account in cases of threatening conduct or suspected fraudulent or illegal activity. These actions will be taken when, in the sole discretion of Fund management, they are deemed to be in the best interest of the Fund or in cases when the Fund is requested or compelled to do so by governmental or law enforcement authority.

Market Timing

In accordance with policies and procedures adopted by the Board of Trustees, the Fund discourages market timing and other excessive trading practices. The Fund is intended primarily for use as long-term investment vehicles. Excessive and frequent short-term (market timing) trading practices may disrupt portfolio management strategies, increase brokerage and administrative costs, harm Fund performance and result in dilution in the value of Fund shares held by longer-term shareholders. Such excessive trading practices may be determined at management's discretion.

To deter market timing, shareholders of the Fund who purchase and redeem shares within a 30-day period will be charged a 0.25% fee at redemption. The Fund and the Adviser also reserve the right, but do not have the obligation, to reject or restrict purchase requests from any investor engaging in excessive trading activity. The Fund defines excessive trading as a purchase and redemption of the same Fund within a 30-day period. Purchase and redemption activity which involves the reinvestment of dividends and capital gains, automatic deposit and withdrawal programs, or portfolio rebalancing is not considered market timing.

The Fund cannot guarantee that it will detect every market timer due to the limitations inherent in their technological systems. The Fund reserves the right to modify its policies and procedures at any time without prior notice as the Fund deems necessary in their sole discretion to be in the best interests of Fund shareholders, or to comply with state or Federal legal requirements.

Selling Your Shares

You may sell your shares at any time.

Your sales price will be the next NAV after your sell order is received in proper form by the Fund, its transfer agent, or your investment representative. Normally you will receive your proceeds within a week after your request is received.

Instructions for Selling Shares

If selling your shares through your financial advisor or broker, ask him or her for redemption procedures. Your advisor and/or broker may have transaction minimums and/or transaction times that will affect your redemption. For all other sales transactions, follow the instructions below.

By Telephone

The telephone redemption privilege is automatically available to all new accounts. If you do not want the telephone redemption privilege, you must indicate this in the appropriate area on your account application or you must write to the Fund and instruct it to remove this privilege from your account. If you own an IRA, you will be asked whether or not the Fund should withhold federal income tax.

The proceeds will be sent by mail to the address designated on your account or wired directly to your existing account in a bank or brokerage firm in the United States as designated on your application. To redeem by telephone, call 1-844-464-6339. The redemption proceeds normally will be sent by mail or by wire within three business days after receipt of your telephone instructions. You may redeem shares up to \$50,000.

During periods of high market activity, you may encounter higher than usual wait times. Please allow sufficient time to ensure that you will be able to complete your telephone transaction prior to market close. Neither the Fund nor its transfer agent will be held liable if you are unable to place your trade due to high call volume.

If an account has more than one owner or authorized person, the Fund will accept telephone instructions from any one owner or authorized person.

Once you place a telephone transaction request, it cannot be canceled or modified after the close of regular trading on the NYSE (generally, 4:00 p.m., Eastern time).

The Fund reserves the right to suspend the telephone redemption privileges with respect to your account if the name(s), the address, or bank account information was changed within the previous 30 days. Neither the Fund, the transfer agent, nor their respective affiliates will be liable for complying with telephone instructions they reasonably believe to be genuine or for any such loss. The Fund or the transfer agent, or both, will employ reasonable procedures to determine that telephone instructions are genuine. If the Fund and/or the transfer agent, or both, will employ reasonable procedures to determine that telephone instructions are genuine. If the Fund and/or the transfer agent do not employ these procedures, they may be liable to you for losses due to unauthorized or fraudulent instructions. These procedures may include, among others, requiring forms of personal identification prior to acting upon telephone instructions, providing written confirmation of the transactions and/or recording telephone instructions.

By Mail

You may redeem shares by mailing a written request to the Fund. You will receive a redemption amount based on the next calculated NAV after the Fund receives your written request in proper form.

Redemption Requests in Good Order

A redemption request will be considered to be in “good order” only if it includes all of the following:

- The name of the Fund and the account number
- The exact dollar amount or number of shares to be redeemed
- The name(s) of the registered account owner(s), exactly as they appear on the account
- Signature(s) of all registered owner(s)
- Any required signature guarantee or medallion signature guarantee, if applicable
- Any documentation reasonably required by the Fund or its transfer agent to verify the identity or authority of the person(s) requesting the redemption

Redemption requests that are incomplete, unclear, unsigned, or submitted without the required documentation or signature guarantees may be delayed or rejected. The Fund and its transfer agent are not responsible for processing delays or losses resulting from requests not received in good order.

The Fund does not consider the US Postal Service or other independent delivery services to be their agents. Therefore, deposit in the mail or with such services, or receipt at the CYBER HORNET TRUST’s post office box, of purchase orders or redemption requests does not constitute receipt by the Fund.

Via Internet

You may also redeem your shares via the Internet. Redemption proceeds will be sent to the address of record on the account or may be sent via ACH to the bank of record on the account. If you have questions or problems accessing your account, contact the Fund at 1-844-464-6339.

Medallion Signature Guarantee Requirements

Signature guarantees will generally be accepted from domestic banks, brokers, dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations, as well as from participants in the New York Stock Exchange Medallion Signature Program and the Securities Transfer Agents Medallion Program (“STAMP”). A notary public is not an acceptable signature guarantor.

A signature guarantee, from either a Medallion program member or a non-Medallion program member, is required in the following situations:

- The redemption amount exceeds \$50,000;
- The proceeds are being mailed to an address that was changed or added within the past 30 calendar days;
- The account registration or ownership is being changed;
- When redemption proceeds are payable or sent to any person, address, or bank account not on record.

The Fund(s) and/or the transfer agent may require a signature guarantee or other acceptable signature authentication in other instances based on the circumstances relative to the particular situation.

Non financial transactions, including establishing or modifying certain services on an account, may require a signature guarantee,

signature verification from a Signature Validation Program member, or other acceptable form of authentication from a financial institution source.

The Fund may waive any of the above requirements in certain instances. In addition to the situations described above, the Fund and/or the Transfer Agent reserve the right to require a signature guarantee in other instances based on the circumstances relative to the particular situation.

Shareholders should contact the Fund's transfer agent in advance of submitting any transaction requests if they are uncertain whether a Medallion Signature Guarantee is required. The Fund's transfer agent reserves the right to reject any signature guarantee.

Payment Methods for Redemptions

Your redemption proceeds will be mailed by check to your address of record unless you have elected to establish other instructions. The following payment options are available if you complete the appropriate section of the Account Application or Account Options Form, or provide written authorization signed by all account owners.

- ACH Transfer - An electronic transfer to your account at a financial institution that is an ACH member. Payment is usually received within two to three days; or
- Wire Payment – Redemption proceeds are wired to your account at a domestic commercial bank that is a Federal Reserve System member. Any wiring fees will be deducted from your proceeds.

The Fund is not responsible for losses or fees resulting from posting delays or non-receipt of redemption payments at your bank when shareholder payment instructions are followed.

It is anticipated that the Fund will meet redemption requests through the sale of portfolio assets or from its holdings in cash or cash equivalents. The Fund may use the proceeds from the sale of portfolio assets to meet redemption requests if consistent with the management of the Fund. These redemption methods will be used regularly and may also be used in stressed or abnormal market conditions, including circumstances adversely affecting the liquidity of the Fund's investments, in which case the Fund may be more likely to be forced to sell its holdings to meet redemptions than under normal market conditions.

Redemption in Kind

Although the Fund intends to pay share redemptions in cash, they reserve the right to pay the redemption price in whole or in part by a distribution of the Fund's portfolio securities. Redemptions in kind typically are used to meet redemption requests that represent a large percentage of the Fund's net assets in order to limit the impact of a large redemption on the Fund and its remaining shareholders. Redemptions in kind may be used in normal as well as in stressed market conditions. In most situations where the Fund distributes securities to meet a redemption request, the Fund expects to distribute a pro rata slice of the Fund's portfolio securities, subject to certain limitations relating to odd-lot amounts of securities and securities subject to transfer restrictions.

Limitations on Redemption Proceeds

Redemption proceeds normally are wired or mailed within one business day after receiving a request in proper form. Payment may be delayed for up to seven days:

- To allow your purchase to clear (as discussed below);
- During periods of market volatility;
- When a shareholder's trade activity or amount adversely impacts the Fund's ability to manage its assets; or
- During any period when the Federal Reserve wire or applicable Federal Reserve banks are closed, other than customary weekend and holiday closings.

If you request a redemption of Fund shares recently purchased by check or ACH, your redemption proceeds may not be made available for up to ten calendar days to allow the Fund to collect payment on the instrument used to purchase such shares. If the purchase instrument does not clear, your purchase order will be cancelled, and you will be responsible for any losses incurred by the Fund as a result of your cancelled order.

In addition, the right of redemption may be suspended, or the payment of proceeds may be delayed, during any period:

- When the NYSE is closed, other than customary weekend and holiday closings;
- When trading on the NYSE is restricted, as determined by the SEC; or
- In which an emergency exists, as determined by the SEC, so that disposal of the Fund's investments or determination of its NAV is not reasonably practicable.

You will not accrue interest or dividends on uncashed redemption checks from the Fund, including checks that are undeliverable and returned to the Fund.

The Fund is not responsible for losses or fees resulting from posting delays or non-receipt of redemption payments when shareholder payment instructions are followed.

Redemption Fee

Short-term “market-timers” who engage in frequent purchases and redemptions can disrupt the Fund’s investment program and create additional transaction costs that are borne by all of the Fund’s shareholders. For these reasons, the Fund will assess a 0.25% fee on the redemption of Fund shares held for less than 30 calendar days. This fee is paid to the Fund to help offset transaction costs and administrative expenses. If you purchased shares on different days, the shares you held longest will be redeemed first (FIFO) for purposes of determining whether the short-term trading fee applies. This fee does not apply to Fund shares acquired through dividend and capital gain reinvestments.

Systematic Withdrawal Plan

As another convenience, you may redeem your Fund shares through the Systematic Withdrawal Plan. Under the Plan, you may choose to receive a specified dollar amount, generated from the redemption of shares in your account, on a monthly basis. In order to participate in the Plan, your account balance must be at least \$10,000. There is no minimum amount required for each payment through the Plan. If you elect this method of redemption, the Fund will send a check to your address of record or will send the payment via electronic funds transfer through the Automated Clearing House (ACH) network directly to your bank account. For payment through the ACH network, your bank must be an ACH member and your bank account information must be maintained on your Fund account. This Plan may be terminated at any time by the Fund. You may also elect to terminate your participation in this Plan at any time by contacting the Transfer Agent at least five days prior to the next scheduled withdrawal.

A withdrawal under the Plan involves a redemption of shares and may result in a gain or loss for federal income tax purposes. In addition, if the amount requested to be withdrawn exceeds the amount available in your account, which includes any dividends credited to your account, the account will ultimately be depleted.

Additional Conditions

Verification of Shareholder Transaction Statements

You must contact the Fund in writing regarding any errors or discrepancies within 60 days after the date of the statement confirming a transaction. The Fund may deny your ability to refute a transaction if it does not hear from you within 60 days after the confirmation statement date.

Non-receipt of Purchase Wire/ Insufficient Funds Policy

The Fund reserves the right to cancel a purchase if payment of the check or electronic funds transfer does not clear your bank, or if a wire is not received by settlement date. The Fund reserves the right to cancel a purchase if a check or electronic funds transfer does not clear your bank. The Fund may charge your account a \$25 fee, and you will be responsible for any losses or fees imposed by your bank and any losses that may be incurred by the Fund as a result of the canceled purchase.

Share Certificates

The Fund does not issue share certificates.

Confirmation and Account Statement

You will receive confirmation of purchases and redemptions (except for systematic transactions). In addition, you will receive periodic statements reporting all account activity, including systematic transactions, dividends and capital gains paid. You may elect to receive your statements and other communications from the Fund electronically. Please see “eDelivery” below.

eDelivery

eDelivery allows you to receive your quarterly account statements, transaction confirmations, year-end tax information, and other important information concerning your investment in the Fund online. Select this option on your Account Application to receive email notifications when quarterly statements and confirmations are available for you to view via secure online access. You will also receive emails whenever a new prospectus, semi-annual or annual fund report is available. To establish eDelivery, call 1-844-464-6339 or visit www.cyberhornets.com.

Closing of Small Accounts

Due to the proportionately higher costs of servicing accounts with lower balances, accounts maintaining a balance under \$5,000 may be charged a \$15 maintenance fee that is imposed annually. If your account falls below \$1,000 for any reason, the Fund may ask you to increase your balance. If it is still below \$1,000 after 90 days, the Fund may close your account and send you the proceeds at the current NAV. If the shareholder designates an Automatic Investment Plan, the \$15 annual maintenance fee is waived. If an account is closed and redeemed due to a low balance, this would constitute a taxable event for the affected shareholder, which may in turn result in a capital gain or loss for federal tax purposes.

Undeliverable Distribution Checks

For any shareholder who chooses to receive distributions in cash, if distribution checks (1) are returned and marked as “undeliverable” or (2) remain un-cashed for six months, your account may be changed automatically so that all future distributions are reinvested in your account. Checks that remain un-cashed for six months will be canceled and the money reinvested in the Fund.

Inactive Accounts

Certain states have unclaimed property laws that may require the Fund or its transfer agent to transfer the assets of accounts that are considered abandoned, inactive, or lost (due to returned mail) to the appropriate state authority. An account may be deemed unclaimed if the shareholder has not initiated any contact or transaction within a time period specified by applicable state law.

In some cases, this process is referred to as escheatment, and shareholders may be required to reclaim the assets from the applicable state’s unclaimed property office. Some states may also require the liquidation of shares prior to escheatment, and shareholders may only be entitled to receive the cash value at the time of sale.

For retirement accounts, such escheatment may be treated as a taxable distribution, and federal and/or state income tax withholding may apply.

To help avoid escheatment, shareholders should maintain current contact information and periodically initiate contact with the Fund or its transfer agent. Examples of shareholder-initiated contact include written correspondence, telephone inquiries, or initiating a transaction in the account.

In accordance with Texas law, residents of the state of Texas may designate a representative to receive legislatively required unclaimed property due diligence notifications. A Texas Designation of Representative Form is available for making such an election.

Other Fees

In addition to the fees disclosed above, the Fund’s transfer agent may charge certain account maintenance or transaction fees including, but not limited to, fees for outbound wires (currently \$15 per wire), fees for IRA withdrawals (transfers or redemptions) (currently \$25 per withdrawal), overnight delivery fees (currently \$35 per delivery), statement retrieval fees (currently \$25 per request) and fees for removal of excess contributions or Roth conversions or recharacterizations (currently \$25 per transaction). These fees may change in the future.

Cost Basis Information

Federal law requires that mutual fund companies report their shareholders’ cost basis, gain/loss, and holding period to the IRS on the Fund shareholders’ Consolidated Form 1099s when “covered” securities are sold. Covered securities are any shares acquired on or after January 1, 2012. These requirements do not apply to investments through a tax-advantaged arrangement, such as a 401(k) plan or an individual retirement account.

The Fund has Average Cost as its standing (default) tax lot identification method for all shareholders. A tax lot identification method is the way the Fund will determine which specific shares are deemed to be sold when there are multiple purchases on different dates at differing net asset values, and the entire position is not sold at one time. You may choose a method different than the Fund’s standing method and will be able to do so at the time of your purchase or upon the sale of covered shares. Please refer to the appropriate Internal Revenue Service regulations or consult your tax advisor with regard to your personal circumstances.

Other Redemption Information

If you hold shares of the Fund in an IRA or other retirement plan, you must indicate on the redemption request whether or not to withhold federal income tax. Redemption requests failing to indicate tax required to be withheld will generally be subject to 10% federal income tax withholding. In addition, if you are a resident of certain states, state income tax also applies to non-Roth IRA distributions when Federal withholding applies. Please consult with your tax professional.

Delivery of Fund Documents

Copies of the Fund's Prospectus, SAI and shareholder reports ("Reports") are available, free of charge, on the Fund's website, www.cyberhornets.com. To reduce the Fund's expenses, you will be asked to consent to receive Reports electronically and to provide your e-mail address on the Fund's account application. Shareholders who do not elect to receive electronic copies of the Reports will receive paper copies free of charge; however, electronic delivery of the Reports is encouraged and intended to protect our shareholders by limiting the Fund's expenses and advancing conservation of natural resources.

In addition, to reduce the likelihood of our shareholders receiving duplicative mailings, the Fund intends to mail to those shareholders who have requested paper copies, only one copy of each Report to all of the shareholders having the same last name and residing at a common address. If you wish to receive separate copies of the Reports, please call 1-844-464-6339. The Fund will begin sending you individual copies thirty days after receiving your request.

Distribution Arrangements

Direct Distribution Arrangements

There is no initial sales charge on purchases of shares of the Fund.

Outside Distribution Arrangements

Investors may be charged a fee if they effect transactions through a broker or agent.

The Fund has authorized one or more brokers to receive on its behalf purchase and redemption orders.

Such brokers are authorized to designate other intermediaries to receive purchase and redemption orders on the Fund's behalf.

The Fund will be deemed to have received a purchase or redemption order when an authorized broker or, if applicable, a broker's authorized designee, receives the order.

Customer orders will be priced at the Fund's NAV next computed after they are received by an authorized broker or the broker's authorized designee.

Distribution and Shareholder Servicing

Arrangements— Revenue Sharing

The Adviser and/or their affiliates may pay out of their own assets' compensation to broker-dealers and other persons for the sale and distribution of the Shares and/or for the servicing of the Shares.

Dividends, Distributions and Taxes

Dividends and Distributions

All dividends and distributions will be automatically reinvested unless you request otherwise. The Fund intends to distribute income and capital gains at least annually. The Fund may make additional distributions and dividends at other times if the Adviser believes doing so may be necessary for the Fund to avoid or reduce taxes.

THE FOLLOWING INFORMATION RELATED TO TAX MATTERS IS MEANT AS A GENERAL SUMMARY FOR U.S. TAXPAYERS. PLEASE SEE THE DISCUSSION IN THE SAI UNDER THE HEADING "ADDITIONAL FEDERAL INCOME TAX INFORMATION" FOR MORE INFORMATION.

Taxes

The Fund intends to distribute all or substantially all of its net investment income and net capital gain in accordance with the timing requirements imposed by the Internal Revenue Code of 1986, as amended (the "Code") and therefore should not be required to pay any federal income or excise taxes. Both distributions will be reinvested in shares of the Fund unless you elect to receive cash. Dividends from net investment income (including any excess of net short-term capital gain over net long-term capital loss) are taxable to investors as ordinary income or qualified dividend income, while distributions of net capital gain (the excess of net long-term capital gain over net short-term capital loss) are generally taxable as long-term capital gain, regardless of your holding period for the shares. Any dividends or capital gain distributions you receive from the Fund will normally be taxable to you when made, regardless of whether you reinvest dividends or capital gain distributions or receive them in cash (unless you hold shares in a qualified tax-advantaged plan or account or are otherwise not subject to federal income tax).

The Fund may be eligible to pay "section 199A" dividends to its shareholders with respect to certain dividends received by it from its investment in real estate investment trusts. Section 199A dividends received in taxable years beginning before 2026 are taxable to

individual and other noncorporate shareholders at a reduced effective federal income tax rate, provided that certain holding period requirements and other conditions are satisfied.

The Fund expects that, as a result of its investment objectives and strategies, its distributions will consist primarily of short-term capital gains, which are taxable as ordinary income. A portion of the ordinary income dividends paid to you by the Fund may be qualified dividends eligible for taxation at long-term capital gain rates provided certain holding period requirements are satisfied. Certain dividends or distributions declared in October, November or December will be taxed to shareholders as if received in December if they are paid during the following January. Each year the Fund will inform you of the amount and type of your distributions.

Your redemptions will cause you to recognize capital gain or loss for federal tax purposes equal to the difference between the tax basis of your shares, including any sales charges, and the amount you receive when you redeem them. Any loss realized on a redemption of shares of the Fund may be disallowed under “wash sale” rules to the extent that the shares disposed of are replaced with other substantially identical shares of the same Fund within a period of 61 days beginning 30 days before the shares are disposed of, such as pursuant to a dividend reinvestment in shares of the Fund. Any capital gain or loss recognized upon the redemption of shares of the Fund is generally treated as long term capital gain or loss if the shares have been held for more than one year and as a short-term capital gain or loss if the shares have been held for one year or less. In certain circumstances, loss realized upon a redemption of Fund shares held for six months or less will be treated as long-term capital loss. Short-term capital gains are taxed at ordinary income tax rates.

There is no assurance that the Internal Revenue Service will not challenge the Fund’s status as a regulated investment company, or that, if it were to do so, it would not prevail. If the Fund were to fail to qualify as a regulated investment company in any year, then the Fund would be subject to federal income tax on its net income and capital gains at regular corporate income tax rates (without a deduction for distributions to shareholders). When distributed, that income would also be taxable to shareholders as an ordinary dividend (or, in some cases, qualified dividend income) to the extent attributable to the Fund’s earnings and profits. If the Fund were to fail to qualify as a regulated investment company and became subject to federal income tax, any shareholder would be subject to the risk of diminished investment returns.

On the account application, you will be asked to certify that your social security number or taxpayer identification number is correct and that you are not subject to backup withholding for failing to report income to the IRS. The Fund reserves the right to reject any application that does not include a certified social security or taxpayer identification number.

Medicare Surtax On Net Investment Income

A Medicare surtax of 3.8% applies to net investment income of a noncorporate taxpayer who recognizes adjusted gross income in excess of a threshold amount for a year. Net investment income will include, among other types of income, ordinary income, dividend income and capital gain derived from investments in the Fund.

Shares held through Foreign Accounts

Investments in the Fund held through accounts maintained by foreign institutions or entities may be subject to a 30% withholding tax on: (1) income dividends paid by the Fund, and (2) certain capital gain distributions and the proceeds of a redemption of Fund shares. This withholding tax generally may be avoided if such institution or entity satisfies certain registration, certification and reporting requirements.

Backup Withholding

The Fund is required in certain circumstances to apply backup withholding on taxable dividends, redemption proceeds and certain other payments that are paid to any shareholder who does not furnish to the Fund certain information and certifications or who is otherwise subject to backup withholding. The backup withholding tax rate is 24% for tax years beginning before 2026. Any amounts withheld may be credited against your U.S. federal income tax liability.

This summary is not intended to be and should not be construed to be legal or tax advice to any current holder of the Fund’s shares. You should consult your own tax advisors to determine the tax consequences of owning Fund shares.

FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the Fund's financial performance for the past five fiscal years. Certain information reflects financial results for a single fund share. The total returns in the table represent the rate that an investor would have earned on an investment in the Fund assuming reinvestment of all dividends and distributions. This information has been audited by Cohen & Company, Ltd., the Fund's independent registered public accounting firm, whose report, along with the Fund's financial statements, are included in the annual report which is available upon request.
